

Another On-line Trenchless Training Course Successfully delivered – to Qatar and Dubai.

JBP are delighted to have completed a three-day on-line course in Sewer Pipeline Condition Assessment and Coding for our colleagues at Lotus Q Network Inspection Services in Qatar and Cornerstone in Dubai.

JBP's trenchless training co-ordinator Frank Reilly would like to thank all candidates who took part, for their active participation, and sharing insights into their experiences with pipeline inspection and assessment in their own markets. And thanks also to Dr Dec Downey for his insights given in the live webinar sessions during the course. We look forward to the next #training event in the coming weeks.

For more information on this or any of JBP's trenchless training courses please contact frank.reilly@trenchless.training.
