

Another On-line Trenchless Training Course Successfully delivered – to Qatar

JBP are delighted to have completed a three-day on-line course in Sewer Pipeline Condition Assessment and Coding for our colleagues at MACE Qatar.

Our course Trainers Dr. Dec Downey and Jan Borje Persson were delighted to have been working with Mr Abdel Ali Daher Framework Manager at MACE Qatar, Mr Anas Taleb, Mr Ahmed Eltagy and all of the team of Site Engineers, CCTV Operators and Interpreters, over the last three days, with our on-line course for Sewer Pipeline Condition Assessment and Coding

JBP's trenchless training director Frank Reilly would like to thank all candidates who took part, for their active participation, and sharing insights into their experiences with pipeline inspection and assessment in their own markets. And thanks also to Dr Dec Downey for his insights given in the live webinar sessions during the course. We look forward to the next training event in the coming weeks.

For more information on this or any of JBP's trenchless training courses please contact frank.reilly@trenchless.training.
